GROUP 集团介绍 Introduction

成就地毯王国 海内皆知

亨玖集团于1996年成立于河北省南宫市。涉及地毯、工业毡、隔音材料、家纺、建材等领域。是集生产、贸易、销售、销售于一体的国内龙头企业，科学研究和开发。下设河北千桥贸易有限公司、南宫市亨玖毛毡制品有限公司、河北森牛进出口有限公司、南宫市奥美毡制品有限公司等四家子公司。

凭借着雄厚的资金实力，亨玖集团从英国、美国、比利时、法国意大利、瑞士、等国家引进具有当今世界先进水平的地毯生产设备四百八十余台，生产中高档阿克明斯特、高清印花地毯、方块地毯、簇绒地毯、单面威尔顿、双面威尔顿、手工打结和手工枪刺地毯以及航空用毯、火车用毯、游轮用毯、汽车毯，并生产尼龙长丝。工程用、商用、产业用、民用……“亨玖”地毯设计了宽泛的应用领域，加上骄人的经营业绩，使得“亨玖”产品被源源不断的出口到欧洲国家、美国、加拿大、俄罗斯、日本、韩国、东南亚国家、中东国家、南非、澳大利亚、新西兰、以及香港、台湾、澳门等四十几个国家和地区以及中国大陆众多三星级以上的酒店，在国内外市场上享有极高的声誉。

“亨玖”时刻向着国际化大型企业的目标迈进。让全世界知道中国“亨玖”的名字。是作为我们的梦想，更是炎黄子孙的梦想！向着梦想前进，我们一刻不都松懈。

行政办公区 Administration Office

“亨玖”每一步都走的脚踏实地，我们坚信凭借其先进的生产设备和工艺流程、现代化的科学管理模式，完善的市场营销体系，优良的产品及周到的售后服务必将发展壮大成为世界地毯行业的中坚力量！

Hengjiu Group Corporation forges ahead with its feet in ground, We firmly believe that, depending on the advanced manufacturing facilities, sophisticated marketing system, high quality products and considerate after-sale service, Qianqiao Group Corporation will be bound to develop and grow up as the backbone of the world carpet industry!

Kingdom Of Carpets Fame Across The World

Hengjiu Group was established in Nangong City, Hebei Province in 1996. Involving carpet, industrial felt, sound insulation materials, home textiles, building materials and other fields. Is set production, trade, sales, sales in one of the domestic leading enterprises. Scientific research and development. There are four subsidiaries: Hebei Qianqiao Trading Co., LTD., Nangong Hengjiu Felt Products Co., LTD., Hebei Senniu Import and Export Co., LTD., Nangong Aomei Felt Products Co., LTD.

With strong financial strength, Hengjiu Group from the United Kingdom, the United States, Belgium, France, Italy, Switzerland, and other countries to introduce the world's advanced water carpet production equipment 480 fish table, the production of high-end Axminster, high-definition printed carpet. Square carpet, tufted carpet, single-sided Wilton, double-sided Wilton, hand knotted and hand thorn carpet as well as aviation blankets, train blankets. Cruise blankets, car blankets, and production of nylon filament. Engineering, commercial, industrial, civil... "Thousand Bridge" carpet design for a wide range of applications, coupled with impressive business performance, "Thousand bridge" clock thinking of the goal of international large enterprises. Let the world know the name of China's "thousand Bridges". It is our dream, but also the dream of the Chinese people! Towards the dream, we do not relax for a moment.

亨玖集团公司拥有从英国、美国、比利时、意大利、瑞士、德国、日本等国引进的先进地毯生产设备480余套，年可生产各类地毯2000万平方米，地毯用尼龙长丝1.3万吨，地毯用毛纱7000吨，形成了从原料生产到地毯制造的配套产业，在品种、品质和成本控制方面有绝对优势。亨玖不仅拥有世界上最庞大的阿克明斯特工厂，还拥有世界上最完整、最先进的智能化地毯制造体系。全部核心设备都已经实现自动化和智能化，是世界地毯行业中最具有科技含量的代表企业之一。

Hengjiu Group Corporation has procured over 480 sets of carpet manufacturing equipments from UK, USA, Germany, Belgium, Italy, Switzerland and Japan, all of which comprise of the most advanced technologies since the 1990s. Capacity of production is 20 million square meters of all kinds of carpets, 13,000 tons of nylon BCF and 7000 tons of yarns. With integrated process from raw material to final product, Qianqiao Group Corporation has strong advantages in quality, product variety and cost control.

Hengjiu does not only have the most enormous Axminster factory, but also the most complete and advanced intelligent carpet manufacturing system in the world. All the core equipments have become automated and intelligentized. Qianqiao is one of the representative enterprises with most technological content in the world carpet industry.

积水为海 铸成今日成就

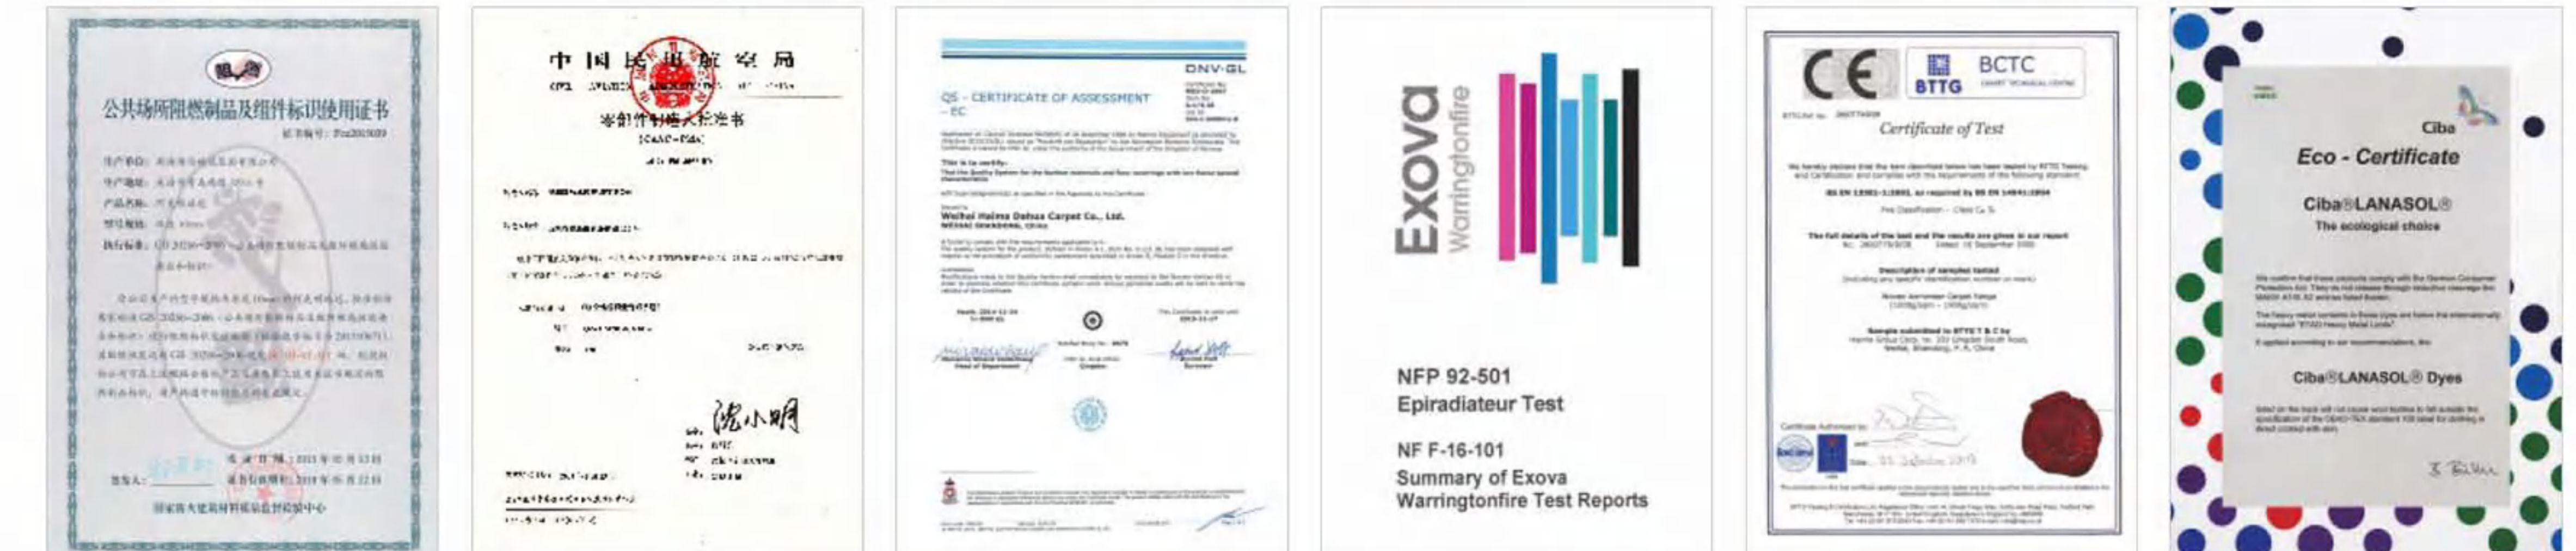

- 获得中华全国总工会颁发的五一劳动奖章；
 - 中国地毯行业首家获国家一级企业称号；
 - 中国地毯行业首家获ISO9001国际质量体系认证企业；
 - 中国地毯行业首家获ISO14001国际环保体系认证企业；
 - 获GB/T28001-2001职业健康安全管理体系认证
 - 世界地毯协会（WFCA）会员单位；
 - 拥有全套引进荷兰NEDGRAPHICS公司设计软件支持的CAD计算机辅助设计系统的开发中心；
 - 拥有完善的引进英国WIRA检验设备的地毯检测中心；
 - 通过美国CRI室内空气质量高级环保认证；
 - 获得英国羊毛以及新西兰羊毛标志使用权；
 - 获得法国高速火车地毯NFP-92-501 NFF-16-101认证
 - 使用CIBA公司的环保染料，生产环保产品；
 - 获得国际环保地毯证书；
 - 获得2006年质量管理奖；
 - 中国地毯行业首批获得“中国名牌”称号；
 - 获得“中国驰名商标”称号
 - 获得“产品质量国家免检”称号；
 - 首家获得地毯行业“AAAA级标准化良好行为”企业；
 - 获得“中国品牌500强”称号；
 - 获得“中国地毯市场最具竞争力领先品牌”称号。
- It is awarded the "May Day" merit by the All China Federation of Trade Unions;
 - It is the first one who won the title of "the National First-Class Enterprise" in Chinese carpet industry;
 - It is the first one who obtained the ISO9001 International Quality System Certification in Chinese carpet industry;
 - It is the first one who obtained the ISO14001 International Environmental System Certification in Chinese carpet industry;
 - It is awarded Occupational Health and Safety Management System Certification GB/T28001-2001.
 - It is admitted by World Floor Covering Association (WFCA) as the sole membership in China;
 - It owns a development center with a complete set of Computer-Aided Design (CAD) system supported by NEDGRAPHICS (Holland) designing software;
 - It owns a well-established Carpet Test Center with WIRA verification equipments imported from Britain;
 - It has passed the American CRI-PLUS Indoor Air Quality Carpet Testing Program;
 - It is authorized to use British Wool Mark and New Zealand Wool Mark.
 - It is awarded with Certification of France Railway Rolling Stock NFP-92-501 NFF-16-101
 - It uses the environment-friendly dyestuffs produced by CIBA Company to produce environment-friendly products.
 - It is awarded with International Certificate of Environmental Friendly Carpet.
 - It is awarded with 2006 Quality Management Prize.
 - It is awarded with the prize of "Top Brand" in Chinese carpet industry.
 - It is awarded "China Famous Brand" prize.
 - It is awarded with title of "National Free Inspection Product Quality".
 - It is awarded with title of "AAAA Good Standardizing Practice Certificate".
 - It is awarded with title of "Top 500 Chinese Brands".
 - It is awarded with title of "Competitive Top Leading Brand in Carpet Industry of China".

半个世纪，披荆斩棘的创业历程记载着一路凯歌
For half a century, the hardships and obstacles of the undertaking composed the march of success!

方块地毯系列
Commercial Carpet Tile Series

“亨玖”集团赋予了方块地毯无与伦比的贵族血脉

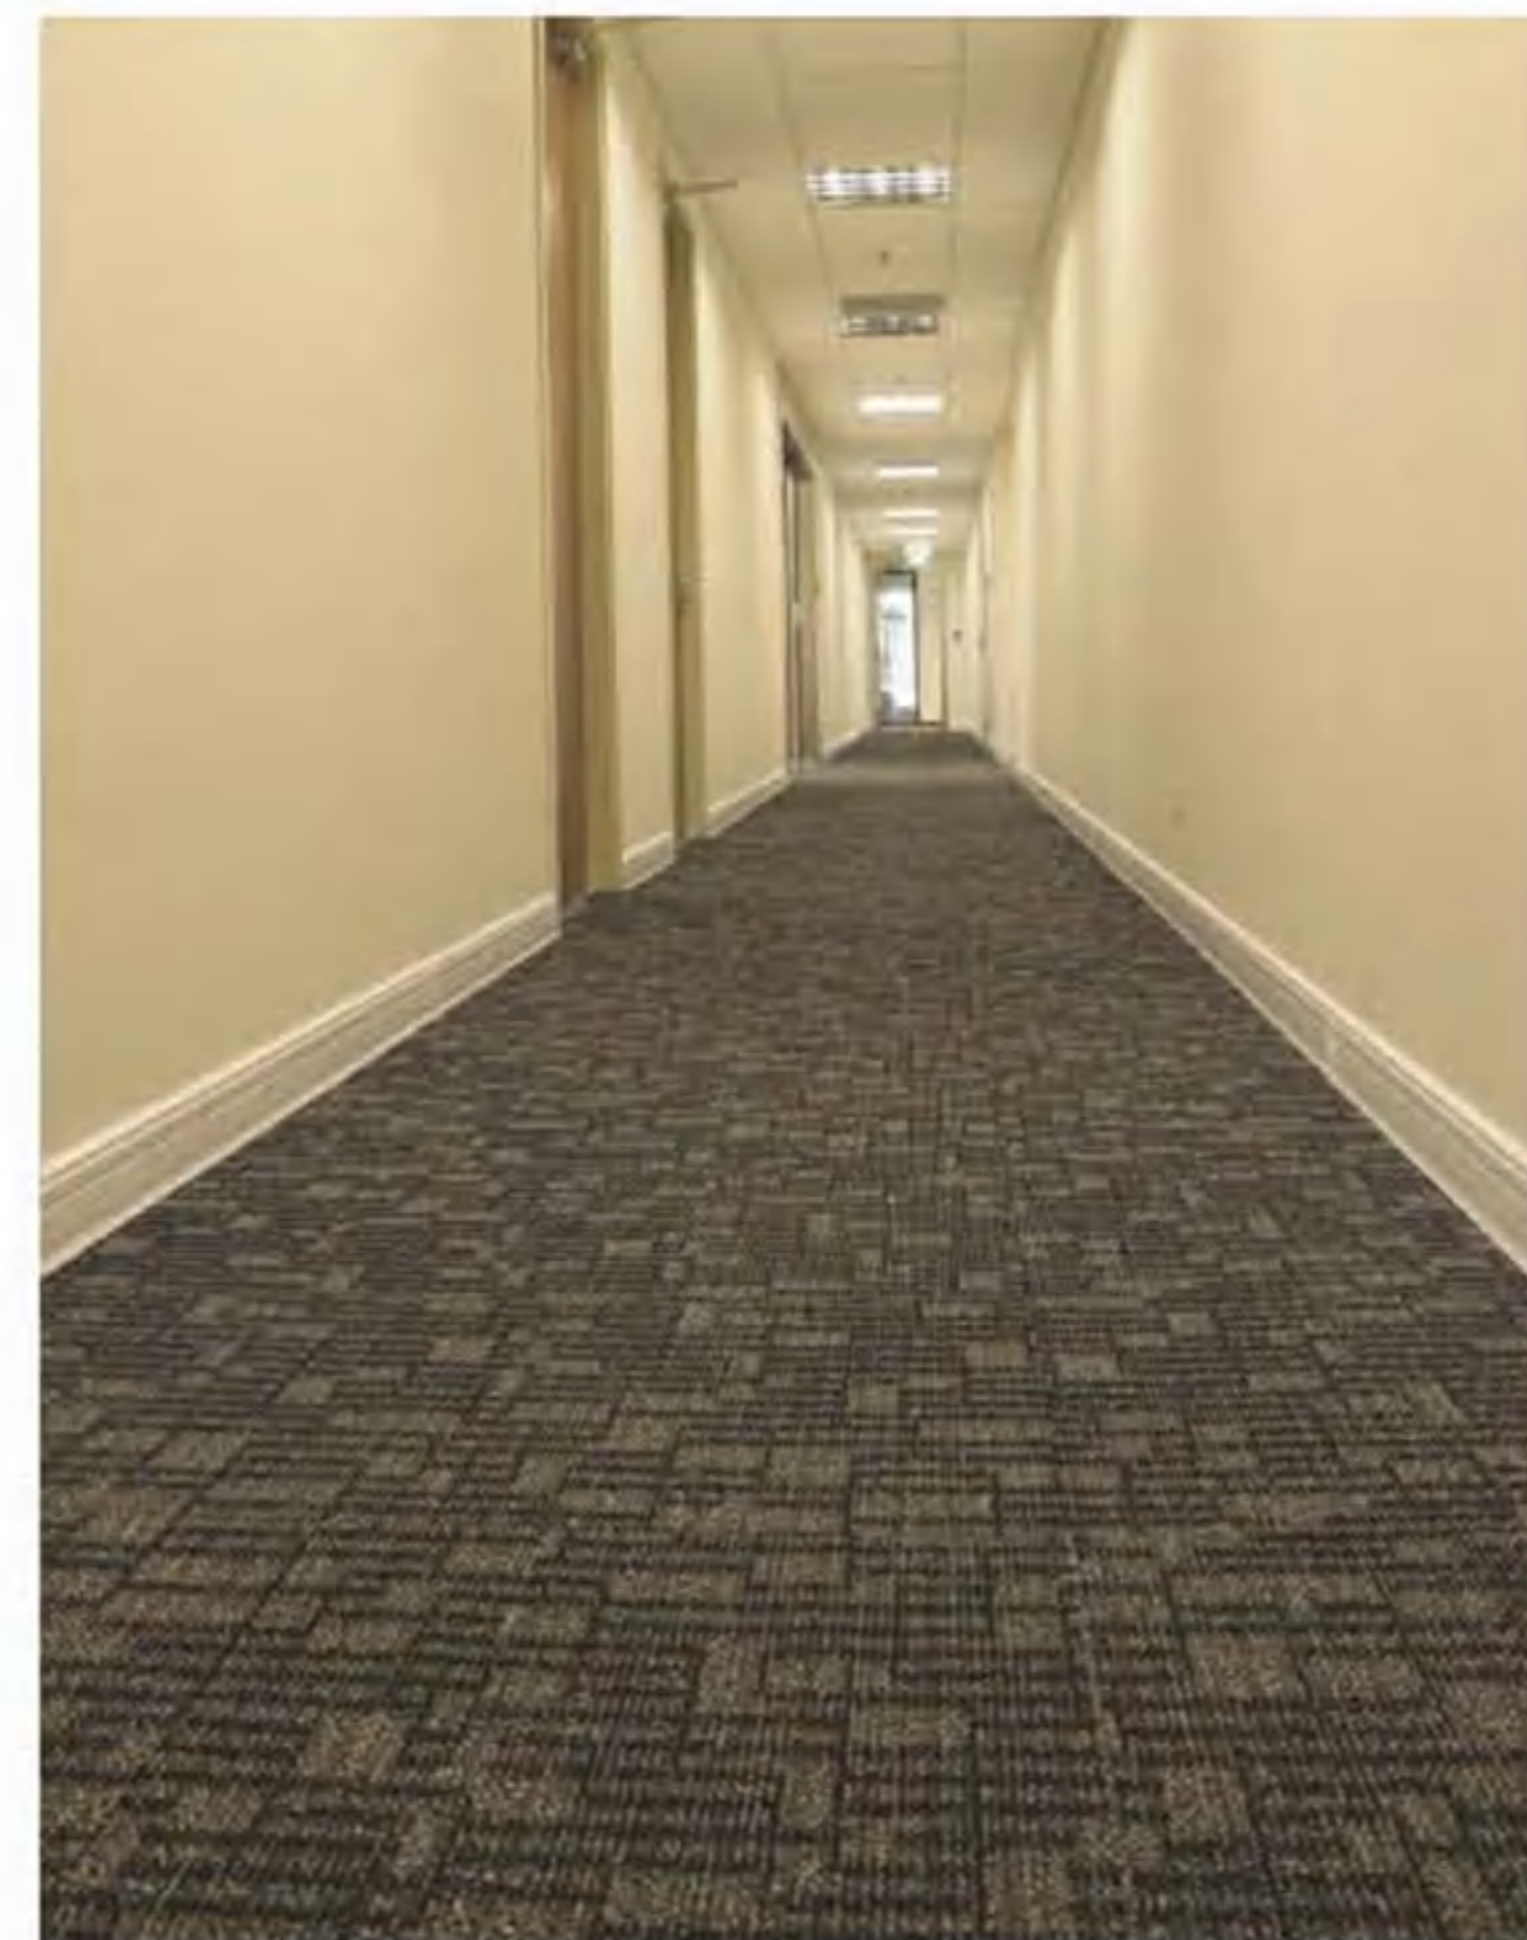

“亨玖”集团从美国TUFTCO公司引进的整套方块地毯生产线设备，是目前世界上最为先进的PU方块地毯生产设备之一，其生产技术和工艺在国内同行中堪称一流。既可以生产PU（聚氨酯）毯背，又可以生产PVC毯背，位于世界领先潮流。

方块地毯可以随意进行颜色和图案的拼接使用，更可以轻松将繁复的商务办公区域划分的一清二楚。配合其耐用的高品质，充分体系了现代生活简约、时尚的内涵……

“Hengjiu” Group Brings Unparalleled Aristocratic Inspiration To Carpet Tiles

The complete set of production equipment line for Carpet Tiles introduced from TUFTCO of the United States of America by “Hengjiu” Group is one of today’s most developed carpet tile production equipment lines in the world. Its production technology and process ranks first among carpet industry across the country. It can produce both PVC backing and Polyurethane backing carpet tiles. And it is leading the world trend.

Carpet Tiles can be used in connection with the montage of the colours and the patterns at your personal will. Your complex business areas and offices can also be easily and clearly partitioned by using our products. With their durable high-quality, our products fully embody the meaning of modern life’s brevity and vogue.

亨玖PU软底方块地毯，绿化环保、安全节能、国家专利产品。以最低的投入，打造最高档最健康的办公环境。

Hengjiu Nylon PU Cushion Back Carpet Tiles are environment-friendly, safe and National Patented Products that create top grade office environment by the least cost.

PU软底方块地毯的优越性

Superiority of Haima Nylon PU Cushion Back Carpet Tiles

PU是聚氨酯的简称，其广泛用于医疗卫生、建材等领域。PU方块地毯是在传统软底方块地毯上加以改进，既克服了传统软底方块地毯中含有沥青成份不利于环保以及无法再回收的特性，同时在舒适及节能上作了进一步的完善。

PU stands for polyurethane, which is used widely in medical health and construction materials. Carpet Tiles have been improved from traditional cushion back carpet tiles that contain asphalt component and not recyclable. Meanwhile, Carpet Tiles have been improved in comfort and energy-saving.

★环保：PU软底方块地毯采用的是双层绿色环保发泡胶底，不含沥青层，绝对不含有甲醛、乙醛等有害成份，不会释放影响人体健康的有害物质，不会散发不愉快的气味，始终保持室内空气清新，安全健康，通过美国CRI室内空气质量高级环保认证。

Environment Protective: PU-backing Carpet Tiles adopt two layers of froth latex without asphalt. It absolutely contains no nocuous material, such as formaldehyde and acetaldehyde. It doesn't release any nocuousness that is bad for bodies or unpleasant smell. It has been tested by American CRI-PLUS Indoor Air Quality Carpet Testing Program.

★降低疲劳：高弹性、超厚度的PU软底，符合人体工学的选择，脚感舒适，能够有效减轻腿部肌肉的疲劳。与其它软底地毯相比，PU软底在长时间使用后更具有回弹性，不易变形，可减轻肌肉疲劳程度20~30%。传统带沥青层软底背长时间碾压后易塌陷，不回弹。

Reduce fatigue: High Elasticity and exceed thickness Polyurethane Cushion Back is in accordance with ergonomic, which gives people more comfortable feeling and reduce leg serious fatigue by 20~30%. Compared with other cushion backs, PU-backing has good elasticity, endurance and hardly distortion even after a long time use. Traditional cushion back with asphalt is easily to distort and have no elasticity after trampling long time.

★耐用性：PU软底方块地毯由于其背背是纯聚氨酯发泡成型（纯进口材料），其底背各处收缩性一致，不易变形，不翘边，而传统软底方块地毯由于中间有一层沥青成份，易与无纺布底背剥离，长时间使用后易脱落，翘边，同时地毯易于折断。

Endurance: the back of PU-backing Carpet Tiles is pure polyurethane froth (absolute imported material) whose contractility is the same in any part. No shape change and no side up. But since traditional Cushion Back contains asphalt, it is easy to peel off non-woven spunbonded, and will peel off in warp side after using long time, and the carpet may break easily.

★阻燃节能：与其它底背相比，PU软底的导热系数最低。与其它底背相比，PU软底能够保温2~3℃，达到很好的节能功效。阻燃等级1，优于PVC底背的烟雾浓度，低于PVC底背的热释放量。PU软底废弃后，100%可回收，达到减少污染和节约资源的双重功效。

Flame retardancy and energy saving: Compared with other backs, PU-backing's heat-lead rate is the lowest. Say, PU-backing preserves heat 2~3℃, achieving perfect energy saving efficacy. Flame retardancy is first class, which precede smoke density and heat release of PVC back. After disuse, PU-backing can be 100% recycled, which achieves goals both of reducing pollution and save resource efficacy.

★消除噪音：PU软底方块地毯隔音性极高，消除噪音，使办公环境更安静，心情舒畅。

Sound insulation: Back Carpet Tiles insulate sound at most. No noise and quiet working environment make good mood.

★适合家用：由于具备地板的组装性和可拆卸性，同时具备了比地板更高的安全性、舒适性、环保性、隔音性，更个性化的图案使PU方块进入家庭的卧室和书房。更优异的综合性能使软性铺地材料替换硬质地板成为可能。

Suit for home: With the installation or teardown is same as floorboard, and as its safety, comfort, environment protective, sound insulation and Individuation is much better than floorboard, tile is more suitable for bedroom and study. With more excellent comprehensive characteristic, soft floor materials can possibly take place of hominess.

★安全防滑：PU软底由于其不受温度、湿度影响，外形尺寸比其它底背相对稳定，不变形、不翘起，始终保持地面的平整和美观；同时铺装粘地的环保胶水易与PU胶底接合，粘和牢固，不滑动，从而块毯之间拼接紧密、无缝隙。

Safe skid proof: Nylon PU-backing Carpet Tile won't be influenced by temperature and humidity. Carpet keeps beautiful appearance with nice dimensional stability, not distortion and unlift. Meanwhile environment protective glue used in installation is easy to joint latex. Firm joint and no slippage make Tiles spelled tightly without gap.

尼龙6.6产品 Nylon 6.6 Products

尼龙长丝生产线

亨玖集团的尼龙长丝年产量达到了13000吨。其生产的长丝产品充分保证了公司的生产及质量要求，并出口日、韩等多个国家地区。

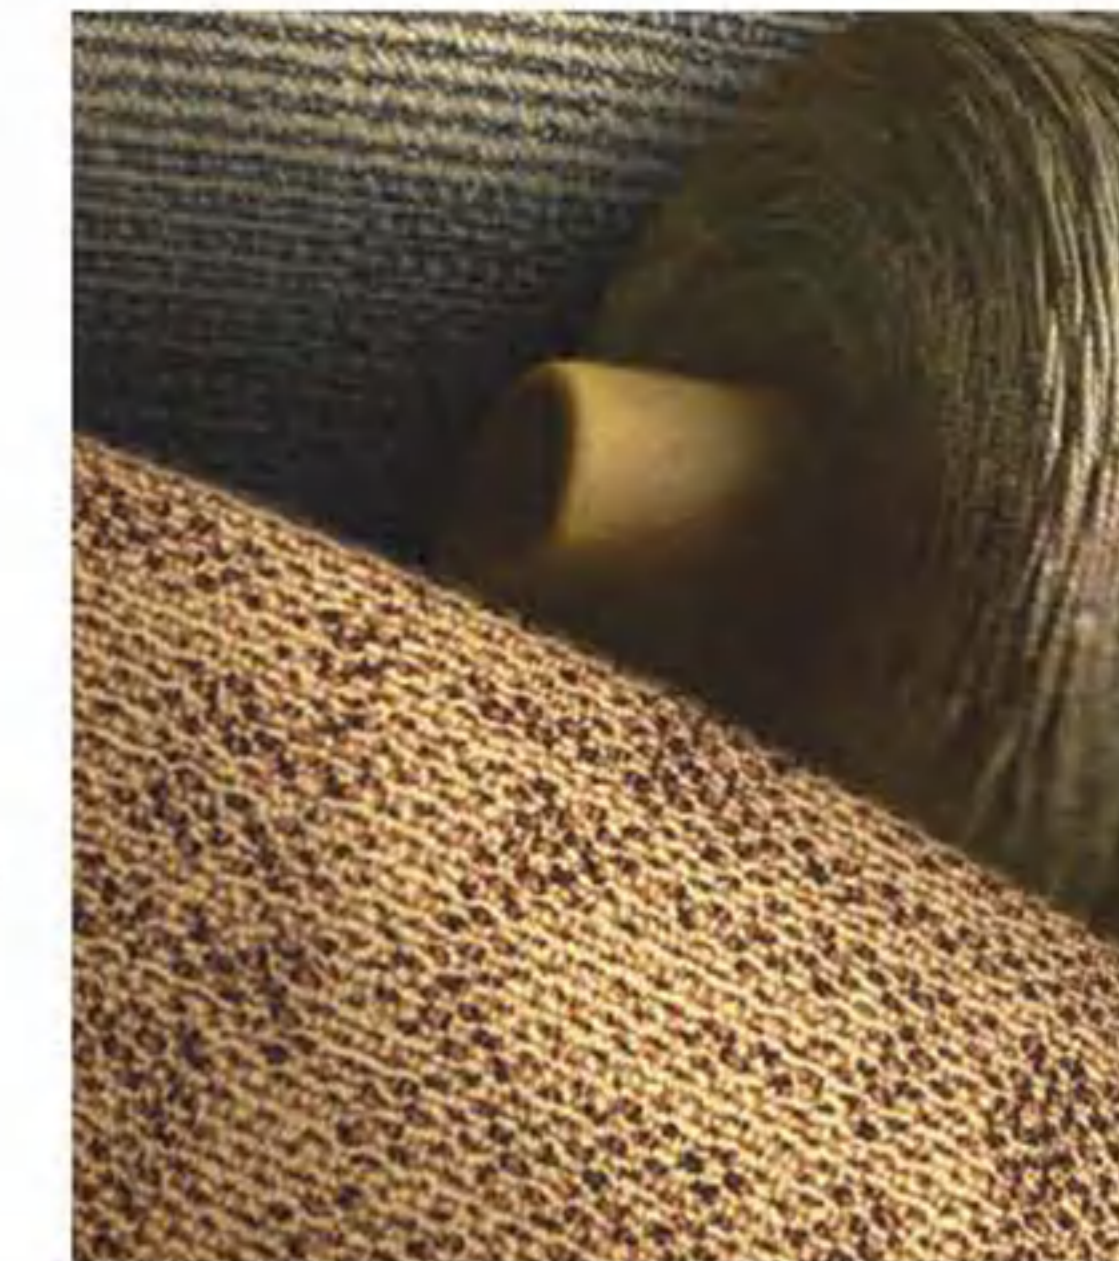

Manufacturing Factories

Hengjiu Group's annual production of nylon filament reached 13,000 tons. Its production of filament products fully ensure the company's production and quality requirements, and exported to Japan, Korea and other countries and regions.

尼龙6.6优点介绍

尼龙6.6生产线引进德国欧瑞康纽马格高端纺丝设备，采用世界最先进的全自动化控制工艺，选用优质的美国首诺尼龙6.6切片，生产出的尼龙6.6纱线品质卓越，具有阻燃、耐磨、弹性好、防尘防污、染色均匀等优异性能。尼龙6.6纱线卓尔不凡的品质将是高档地毯的首选材料，也必然成为国内外高端客户的最佳选择。

- 阻燃性** ——由于尼龙6.6特殊的紧密型分子结构，相对于其它地毯纤维，具有最高的熔点(264℃)，因此其生产的地毯具有很好的阻燃性。
- 弹性** ——由于分子中脂肪链的柔性及酰胺键的极性，纤维具有很好的回弹性，弹性恢复率达到90-95%以上。
- 光泽与手感** ——纤维截面为异型结构，具有象天然羊毛一样的柔和光泽，使地毯表面自然美观。纤维细度均匀，手感柔而滑爽，最佳的卷曲度增加了地毯的蓬松覆盖效果，提高了地毯的弹性及耐磨性等品质。
- 防尘防污性** ——尼龙6.6纤维对干性、水性及油性污渍都能起到保护作用，较尼龙6及其他合成纤维有更好的防污效果。
- 染色性** ——尼龙6.6纤维结构均匀，染色色谱丰富，颜色鲜艳、亮丽，具有其他纤维无与伦比的色牢度及卓越的防褪色性能。

Advantage of Haima Nylon 6.6 BCF

Nylon 6.6 extruding facility is the high-end equipment introduced from Oerikon Neumag Feman, which adopts the most advanced full automation control procedure. Made of selected top quality Nylon 6.6 chip from Solutia Inc. USA, Nylon 6.6 BCF is featured by a series of excellent performance such as anti-flammability, long-lofe endurance, high elasticity, dust & soil resistance, uniform dyeing, etc. All these high qualities make Nylon 6.6 BCF the first choice for high-grade carpet material and the best choice for all top customer at home and abroad.

- Anti-flammability** ——Compared with other carpet fibers, Nylon 6.6 has the highest melting point (264℃) due to its special and compact molecular structure.
- Elasticity** ——The flexibility of aliphatic chain and polarity of amido bond in molecular enable the fiber highly elastic. The elasticity recovery ratio can reach as high as above 90-95%.
- Gloss and Hand feel** ——The profiled fiber cross-section is with soft gloss like natural wool, which contributes to the natural and elegant carpet surface. Uniform fineness, soft and smooth hand feel, best curliness increase the fluffy cover effects of carpets, and improve the carpet quality of elasticity and endurance.
- Dust & Soil Resistance** ——Nylon 6.6 fiber is effectively against dry, water and oil stains and performs much better than Nylon 6 and other synthetic fibers.
- Dyeing** ——Nylon 6.6 owns an even structure. It allows abundant dye Chromatogram and brilliant color and achieves unmatched color fastness and exceptional fade resistance.

Low-carbon 低碳环保 PROJECTS

作为地毯行业的先行者,亨玖地毯始终关注地毯环保事业,向客户提供最佳环保绿色产品,并因此获得世界权威机构各项环保产品认证。生产污水循环利用和排放一直优于国际标准,这是对干桥地毯在环保领域做出的切实努力的最好证明。

As a pioneer in the carpet industry,Hengjiu Corporation Froup has always benn cinceded about the low-carbon environmental protection.We are to provide customers with the best environmental-friendly products,and therefore get several certifiates awarded by the world authority on environmental-friendly product.Waste water recycling and emissions have been better than the national standard,which is the best proof of Qianqiao Corporation Group to make concrete efforts in enviromtal protection.

污水处理厂鸟瞰

地毯材料的选择

我公司积极倡导绿色产品,受益环保,把环保的理念引如生产的每一个环节,产品达到国际环保标准。原材料的选用环保标准作为其中一项必须考虑的指标,地毯所用材料经过严格筛选,全部采用环保材料,从源头把好质量关。主要原料绒毛纤维采用新西兰、英国羊毛和首诺尼龙,染料使用 CIBA 公司的汽巴精化环保染料,胶料选用巴斯夫环保地毯胶乳。

生产过程的控制

建立生化加物化的污水处理系统,排放指标达到80-150COD(国家标准≤500COD),避免污染排放。

The Choosing of Carpet Material

We advocate the green products and have been benefiting from them, so we apply the green philosophy to each procedure of the production and our products have met the International green standard. It is one of our essential standards to choose the green material. All the materials must be examined through different procedures to ensure they are environment friendly and are suitable for our products. The main fiber we use are New Zealand wool, British wool and Solutia nylon. The dye stuff are from Ciba and the latex are from BASFU.

The Control of Production Procedure

We have established a biological and physical waste water treatment system, and the standard is 80-150COD(the national standard ≤ 500COD), which can avoid the pollution.

运筹帷幄

所有的成就都在昨天凝固,所有的辉煌将从此刻启航。

Devise Strategies

All the achievements were cemented in the past.
All the glory will set off from now on.
